I am a highly motivated third-year Information Technology student with an impressive track record in coding and website development, spanning over three years. My passion for computers has earned me a level 3 NC(V) certification, NQF Level 5 in System Support and acquired a skill as a full Stack developer. I am highly skilled in HTML, CSS, JavaScript, and Office 365. Additionally, I have obtained Azure Database Fundamentals following data analysis in Microsoft. I am confident and eager to apply my expertise to your project.

SKILLS

- Able to Install Windows Software and Windows Server
